

The Foundation Stage

The Nursery will:

- Welcome you and your child.
- Support the aims and values of the school
- Plan rich and varied learning experiences inside and outside recognising that learning is part of life
- Encourage your child to access a wide variety of experiences and to socialise with other children and adults
- Work together to develop independence and self-help skills
- Maintain and share pupil progress and assessment, informing parents of any areas of concern
- Value the individual qualities and needs of your child and aim to provide appropriate support for any special needs he/she may have
- Keep your child safe
- Encourage your child to value other people and themselves and respect their rights whatever their language, culture or religion

As parents or carers we will:

- Try to keep ourselves informed about the life of the Nursery, for example by reading newsletters and contributing to our child's profile and talking about progress with key workers
- Attend regularly, on time and dressed appropriately, informing Nursery if our child is ill
- Tell you about our child's life, what they enjoy and what they have been doing
- Inform our child's key worker of any home circumstances or concerns which may affect our child's education
- Support our child in developing the skills that they are learning in Nursery (reading, writing, phonics, number, etc)
- Encourage our child to value other people and respect their rights whatever their language, culture or religion.
- Drop off and collect my child at agreed times, particularly if they differ from the published nursery session times.
